

Norwegian animal health in an international context – Developing a strategy for the future

Kristina Landsverk

CVO

Norwegian Food Safety Authority

Animal health – Important asset in animal production

Investing in animal health

Expenditure

- Preventive measures
- Surveillance
- Fighting disease

Return

- Reduced costs
- Lower prices
- Animal welfare
- One health
- AMR
- Zoonoses
- Market access

Norwegian animal health status

- Never occurred
- Eradicated
- Under control
- Protection

The Norwegian model

- **Close cooperation between**
 - Industry
 - Research and Development
 - Authorities
 - Political institutions
- **Built on trust**
- **Joint venture**
 - Shared ownership
 - Shared returns and risks
 - Shared governance

Strategy for the future

Continue to develop the Norwegian model

Industry

Close cooperation between

Authorities and R&D

Political institutions
